## INDUSTRY LEADING 2 1/8" INSULATED DOOR FEATURES

### PANELS

- Durable and lightweight, extruded structural PVC provides an estimated savings of up to \$800 in fuel costs during the life of the door.
- Zinc plated hinge for extended hinge life with optional SS upgrade available.
- Designed to drop-in to most standard external hinged Freezer doors.
- Our PVC design never requires painting and won't show scratches like most other truck doors.
- The McLaren door panel has a special additive that provides superior protection against UV damage and chemical corrosion.
- Our panels provide protection against water and dirt penetration, as well as anti-microbial protection for a germ-free surface.
- Industry leading 5-year warranty against panel rotting, fading and delamination.

### INSULATION

- McLaren Doors uses 94% closed cell eco-friendly foam, rated at a 7.5 R-value per inch.
- Panel ends are sealed with rubber to prevent water absorption which leads to increased door weight.

### TOP BRACKET ASSEMBLY

- Our low headroom stainless steel top bracket and SS mounting plate is engineered for fast and easy adjustment.

### COUNTERBALANCE

- Single and dual spring galvanized operator assembly available.

### REINFORCEMENT

- Aluminum reinforcement supplies maximum strength and supports hinges without sacrificing our light weight design.

### BOTTOM PANEL

- Aluminum bottom panel and seal retainer provides extra protection where its needed most.
- PVC seal insert with dual durometer leg provides enhanced resistance to closer shock.
- Through U-Bolts allows easy inside access to our unique and exclusive cable design.
- OPTIONAL Bottom swing hinge allows the bottom panel to stay out of harm's way in the header of the door.

### ROLLERS

- Heavy duty 2" nylon roller with sealed stainless steel bearing and 5" shank provides a long lasting and strong roller that requires no greasing.

### SEALS

- Dual flexible rubber seal ensures good seal contact, even on older frames. We also offer an optional header seal to increase your contact range up to 2".
